◆ PART ONE ◆ BEST PHOTO SPOTS ◆

4 Spots That Will Stop Your Scroll

These four locations are personal favourites — each one delivers a genuinely different kind of shot. The full guide has 50+ spots with exact Google Maps links and the best time of day for each.

1. Opposite Missoni Shop, Positano

📍 Positano · Viale Pasitea

One of the most classic Positano viewpoints — the terracotta domes of the church against a backdrop of pastel-coloured houses cascading to the sea. Go before 10am or after 6:30pm to avoid other photographers in your frame. The light at golden hour here is extraordinary.

2. Via Torre Dello Ziro, Amalfi [HIDDEN GEM]

📍 Amalfi · Walk down from the cemetery

Take the lift from Piazza Municipio up to the monumental cemetery, then walk down the steps for 2–3 minutes. You'll arrive at a viewpoint that looks straight out over Amalfi town and the coastline below. Almost no tourists make it up here — it feels like the whole coast is yours.

3. Giardini di Augusto, Capri

📍 Capri · Gardens of Augustus

The view from these terraced gardens over the Faraglioni sea stacks is one of the most iconic in all of Italy. Come in late afternoon when the light hits the rocks from the west. Don't miss the view down over Via Krupp from the upper terrace — it's a different shot entirely and almost no one photographs it.

4. Villa Cimbrone — Terrace of Infinity, Ravello [HIDDEN GEM]

📍 Ravello · Villa Cimbrone gardens

The Terrace of Infinity is, quite simply, one of the great views of Europe. Classical busts line the balustrade above a 300-metre drop to the sea. On a clear morning you can see the full arc of the Gulf of Salerno. Arrive when it opens (9am) before day-trippers arrive — you may have it entirely to yourself.

◆ PART TWO ◆ TOP ROOFTOP BARS ◆

3 Rooftop Bars Worth Booking in Advance

The Amalfi Coast and Capri have some of the finest sunset bars in the world. These three cover every mood — from classic glamour to hidden local gem. Our full guide reviews all 14, with reservation links and room booking options for each.

1

Franco's Bar at Hotel Sirenuse

📍 Positano

One of the most celebrated cocktail bars on the coast — and rightly so. Perched above Positano's main beach, Franco's offers fine spirits, perfectly made cocktails, and a view that makes the price feel completely justified. Come for sunset and stay until the hills go dark. The bubbly and salted almonds are the move.

Must order: Seasonal cocktails — ask what's freshest

2

Capri Rooftop

📍 Capri — near La Piazzetta

A short walk from the famous Piazzetta, this terrace looks directly over the Faraglioni rock stacks — the defining image of Capri. Ideal from morning coffee to romantic sundowner. The Luna Caprese (vodka, limoncello, citrus, soda) is the signature — order it at least once. Tables go fast in summer; book ahead.

Must order: Luna Caprese — the signature cocktail

3

Hotel Le Fioriere, Praiano

📍 Praiano — hillside above the coast

Praiano's best-kept secret. Fewer tourists than Positano bars, much better value, and Bellini cocktails that locals will tell you are the finest on the coast. Dinner here is exceptional — fried prawns with sweet and sour sauce, with the sea below and the stars above. Book dinner on the terrace at sunset.

Must order: The Bellini — legendary on this stretch of coast

🍷 WANT ALL 14 ROOFTOP BARS?

The full Rooftop Bars Guide covers 14 bars across Sorrento, Positano, Praiano, Capri and beyond — with full reviews, bar reservation links, and room booking options for each hotel. See the final page to get it.

◆ BONUS ◆ QUICK INSIDER TIPS ◆

6 Things Most Tourists Don't Know

1

Go early or go late

The best photo spots — and the best bar terraces — are always best before 10am or after 6:30pm. Midday crowds ruin shots and fill seats.

2

Take the ferry, not the car

The SS163 coastal road is one of the most scenic in Europe — and one of the most congested. The ferry network connects all major towns cheaply and gives you the best views of the coastline.

3

Praiano over Positano

Positano is iconic but expensive and crowded. Praiano — 20 minutes along the coast — has better sunset views, half the price, and a fraction of the tourists.

4

Book rooftop bars in advance

In peak season (June–August), the best terraces fill up days ahead. If you know your dates, book before you arrive — especially for sunset slots.

5

The Path of the Gods is not as hard as it sounds

The main section from Bomerano to Nocelle is 7.8km at a relaxed walking pace. The views from up there make everything at sea level look like a postcard. Do it.

6

May, June or September — never August

The coast is at its most beautiful — and most manageable — in shoulder season. Prices drop, beaches breathe, and you can actually enjoy the towns.

You've Seen the Taster.
